SECTION 1 INTRODUCTION AND GENERAL INFORMATION

1.1

A. Overview

The City is issuing this RFQ/RFP to assess the qualifications of developers interested in the acquisition and redevelopment of the Redevelopment Area which is comprised of approximately 0.72 acres of frontage on Bedle Place, Worth Avenue and Park Avenue. The City is also seeking proposals for the proposed redevelopment of the Redevelopment Area and a proposed for the purchase of the Redevelopment Area from the City. The City owns all of the property making up the Redevelopment Area.

As a result of the conditions within the Redevelopment Area, on March 16, 2016, the City Council adopted a resolution designating the Redevelopment Area as an “area in need of redevelopment” under the Redevelopment Law. The City intends to utilize the powers granted to it under the Redevelopment Law to encourage and incentivize the revitalization of the Redevelopment Area, including the undertaking of this RFQ/RFP.

While not a part of the Redevelopment Area, Block 496, Lot 4 was designated as an area in need of redevelopment (non-condemnation), by the City Council on June 19, 2018. The City is not the owner of Block 496, Lot 4.

B. Redevelopment Area

The Redevelopment Area was designated as a redevelopment area on March 16, 2016. On June 21, 2016, the City adopted the Redevelopment Plan, which has since been amended, establishing the standards for any development within the Redevelopment Area (and in addition, Block 496, Lot 4) with the goal of eliminating or reversing the conditions of blight within the area.

C. Redevelopment Plan Goals

The overall goal of the Redevelopment Plan for the Redevelopment Area is to revive an underutilized area with the creation of single and two-family dwellings, as well as two-family semi-detached dwellings, of sufficient size to meet the needs of the surrounding market area. The City wishes to eliminate structures, which by reason of dilapidation, deterioration, age and obsolescence and related factors are unsafe or substantially impair the sound growth, planning and functioning of this portion of the City. The goal is to create an attractive and visually appealing environment. In furtherance thereof, the Issuer is seeking Qualified Respondents for consideration in selecting a “redeveloper” (as such term is defined in the Redevelopment Law) for the Redevelopment Area.

The Redevelopment Plan as currently written allows for development of single and two-family dwellings, as well as two-family semi-detached dwellings and townhouses, with permitted accessory uses of private, residential swimming pools and home occupations that are conducted on no more than 350 square feet or the equivalent of 40% of first floor area of the building, whichever is less. The City will consider proposals that offer alternatives to the Redevelopment Plan, recognizing that such a proposal may require an amendment to the Redevelopment Plan pursuant to the process set forth in the Redevelopment Law.

D. Redevelopment Area Conditions

The Respondent to this RFQ/RFP should become familiar with the Redevelopment Area and the City, and should be prepared to provide a formal response that sets forth a comprehensive strategy for redevelopment of the Redevelopment Areas.

E. Purchase Price

The City is offering to sell the Redevelopment Area for Three Hundred Thousand Dollars (\$300,000.00), or best offer.

Each Respondent must prepare its Response using a complete RFQ/RFP, including any addenda issued by the Issuer prior to the date established for submission of all Responses. 1.0 — Introduction

On July 21, 2015, the Linden City Council adopted Resolution No. 2015-282, which authorized the Linden Planning Board to undertake a preliminary investigation to determine whether or not Block 496, Lot 3 in the City of Linden may be designated as an area in need of redevelopment in accordance with applicable New Jersey Law. A copy of Resolution No. 2015-282 is provided in Appendix A.

A report dated December 21, 2015, and entitled “Redevelopment Study and Preliminary Investigation Report, Block 496, Lot 3”, was subsequently prepared by Paul N. Ricci, PP, AICP of the firm of RicciPlanning, LLC. The report concluded that the aforementioned parcel met several of the requirements for being designated as an “area in need of redevelopment”, as outlined in the criteria set forth at N.J.S.A. 40:12A-1 et seq. (Local Redevelopment and Housing Law). Specifically, the report concluded that Block 496, Lot 3 met the “a”, “b” and “h” criteria. On February 9, 2016, the Linden Planning Board held a public hearing and adopted an unnumbered resolution, which recommended to the mayor and Linden City Council the designation of Block 496, Lot 3 as an area in need of redevelopment. A copy of this unnumbered resolution is provided in Appendix B.

The Linden City Council subsequently adopted Resolution No. 2016-134 on March 16, 2016. This resolution designated Block 496, Lot 3 as an area in need of redevelopment and authorized the preparation of a redevelopment plan. A copy of Resolution No. 2016-134 is provided in Appendix C. Thereafter, the Linden City Council adopted a redevelopment plan for Block 496, Lot 3 on April 26, 2013.

Since the adoption of the redevelopment plan for Block 496, Lot 3 on April 26, 2013, the Linden City Council adopted a resolution, which authorized the Linden Planning Board to undertake a preliminary investigation to determine whether or not adjacent Block 496, Lot 4 may also be designated as an area in need of redevelopment.

Paul N. Ricci, PP, AICP of the firm of RicciPlanning, LLC prepared, on behalf of the Linden Planning Board, a report dated May 23, 2018 and entitled “Redevelopment Study and Preliminary Investigation Report, Block 496, Lot 4”. Said report concluded that the aforementioned parcel met statutory requirements for being designated as an “area in need of redevelopment”. On June 12, 2018, the Linden Planning Board held a public hearing and recommended that the mayor and Linden City Council designate Block 496, Lot 4 as an area in need of redevelopment.

The Linden City Council subsequently designated Block 496, Lot 4 as an area in need of redevelopment and authorized the amendment, or repeal and replacement, of the redevelopment plan for Block 496, Lot 3 that was previously adopted on April 26, 2016 to include provisions for the redevelopment of adjacent Block 496, Lot 4 as part of a single redevelopment area with Block 496, Lot 3.

This redevelopment plan repeals and replaces the redevelopment plan for Block 496, Lot 3 that was previously adopted on April 26, 2016 to also include provisions for the redevelopment of adjacent Block 496, Lot 4. It has been prepared to codify the goals, objectives, and specific land use and development standards for the redevelopment of both Block 496, Lot 3 and Block 496, Lot 4.

2.0 — Statutory Requirements

As per the Local Redevelopment and Housing Law, a redevelopment plan shall include an outline for the planning, development, and redevelopment of a designated redevelopment area that is sufficient to indicate:

- Its relationship to definite local objectives as to appropriate land uses, density of population, and improved traffic, public transportation, public utilities, recreational and community facilities, and other public improvements;
- Proposed land uses and building requirements;

Redevelopment Plan

The Local Redevelopment and Housing Law further requires that a redevelopment plan describe its relationship to pertinent municipal development regulations.

Prior to the undertaking of any voluntary acquisition of property by the designated redeveloper(s), to the extent required by law, a Workable Relocation Assistance Plan shall be submitted to and approved by the Department of Community Affairs in accordance with the requirements of N.J.A.C. 5:11-1.1 et. seq. It is expressly understood that the approval of any plans by either the Linden Planning Board or the redevelopment authority applies to any and all features shown thereon. Any and all subsequent additions, deletions or other modifications of the plans must be submitted to the Linden Planning Board for final approval before construction can begin.

4. Maintain the structures and facilities in accordance with all codes and ordinances of the city.

5. When townhouses are developed, and to improve traffic flow in the general area, provide a curbed and landscaped traffic island at the eastern corner of Park Avenue and Bedle Place.

6.4 — Deviation Requests

The Linden Planning Board may grant deviations from the requirements of this redevelopment plan in cases where the strict application of a particular requirement would result in peculiar practical difficulties to, or exceptional and undue hardship upon, the redeveloper.

The Linden Planning Board may also grant deviations when it finds that the overall goal and objectives of this redevelopment plan would be advanced, and that the benefits of a deviation would outweigh any detriments. No deviation may be granted under the terms of this section unless the Linden Planning Board finds that such deviation can be granted without substantial impairment of the redevelopment plan's overall goal and objectives.

Public notice of any application for deviation from the requirements of this redevelopment plan shall be required and conform with the standards for public notice of N.J.S.A. 40:55D-12(a) and 12(b).

The following types of deviations shall only be permitted by means of an amendment to the redevelopment plan by the Linden City Council, and only upon a finding by same that such deviation would be consistent with and promote the furtherance of the overall goal and objectives of this redevelopment plan:

1. Deviation to allow a land use that is not permitted in this redevelopment plan.
2. Deviation to increase permitted floor area or density.
3. Deviation to allow an increase in building height that exceeds the permitted building height that is outlined in this redevelopment plan by ten feet or ten percent, whichever is less.

6.5 — Planning Board Review

Pursuant to N.J.S.A. 40A:12A-13, all development applications shall be submitted to the Linden Planning Board for review and approval.

The following provisions shall govern the Linden Planning Board's review:

2. Regular maintenance and minor repair shall not require Linden Planning Board review and approval.
3. The Linden Planning Board shall conduct its review pursuant to N.J.S.A. 40:55d-1 et seq. and the city's Land Development Ordinance.
4. As part of the site plan approval, the Linden Planning Board may require the redeveloper to furnish performance guarantees pursuant to N.J.S.A. 40:55D-53. The performance guarantees shall be in favor of the city and the city engineer shall determine the amount of any performance guarantees.
5. Any subdivision of land within the area governed by the redevelopment plan shall be in compliance with same and reviewed by the Linden Planning Board pursuant to N.J.S.A. 40:12A-1 et seq. and N.J.S.A. 40:55D-1 et seq.
6. Once a property has been redeveloped in accordance with the redevelopment plan, it may not be converted to any use not expressly permitted in same. No nonconforming use, building, or structure may be expanded or made more nonconforming in nature after adoption of this redevelopment plan. A use or structure not conforming to the requirements of this redevelopment plan may not be reconstructed in the event of its

destruction. The Linden Planning Board shall determine the issue of whether the nonconforming use, building or structure has been “destroyed”.

7. Any and all definitions contained within the redevelopment plan shall prevail. In the absence of a definition, the definition found within the city’s zoning and land development ordinances shall prevail. Any and all definitions that are found to be inconsistent with N.J.S.A. 40A:12-3 shall be rendered invalid.
8. A redeveloper shall be required to pay all applicable escrow fees and other required charges in accordance with applicable provisions of the city’s Land Development Ordinance and applicable New Jersey Law. Additionally, a redeveloper may be required to pay for their proportional share of the cost of any studies, plans, reports, or analysis prepared by the city or its design professionals as part of plan review. Any such payments are required to reimburse the city or the redevelopment authority.
9. All of the above provisions are subject to approval by ordinance or resolution according to law. If a court of competent jurisdiction finds any word, phrase, clause, section or provision of the redevelopment plan to be invalid, illegal, or unconstitutional, the word, phrase, clause, section, or provision shall be deemed severable and the remainder of the redevelopment plan and implementing ordinance(s) shall remain in full force and effect.

Re: Project Monitoring – IDLH Demolition and Asbestos Containing Material Disposal
940 Park Avenue South
Linden, New Jersey

EC Project # 16409-01

Environmental Connection, Inc., (EC) was contracted by CME Associates to perform project monitoring, conduct air sampling and provide analytical services during the demolition of the referenced building. The building was determined to be unsafe for occupancy prior to the demolition activities. Since the building was unsafe, the Asbestos Containing Materials were left in place during the demolition. The segregation, bagging, abatement and disposal of ACMs identified during demolition were performed by the Asbestos Contractor, DELFA Contracting, of Union City, New Jersey.

The Contractor followed a wet demolition protocol utilizing water hoses to keep all building materials adequately wet during all demolition activities. All ACM was placed in a lined, sealed dumpster prior to transportation to the proper disposal site. During the demolition process, the building materials were separated into piles. One (1) pile was metal debris to be recycled, one (1) pile of miscellaneous debris to be disposed of as asbestos containing waste and one (1) pile of masonry which was to be recycled.

EC's monitoring program consisted of air sampling and sample analysis. Air sampling was performed during demolition and sorting until the building was demolished and there was no visible ACM identified on the site. Samples were analyzed by EC's American Industrial Hygiene Association (AIHA) Asbestos Analyst Registry (AAR) registered analyst, using Phase Contrast Microscopy (PCM) in accordance with the National Institute of Occupational Safety and Health analytical method #7400 A, Revision #3.

The NIOSH test method #7400 involves the collection of a known volume of air using calibrated sampling pumps. The air is collected across the open face of a mixed cellulose ester filter. The filters are then prepared for microscope reading by PCM. Briefly, criteria specified in this method for determining fibrous content are size, length to width ratio and morphological characteristics of the fibers. It should be noted that all fibers meeting the appropriate criteria are counted in this method. Therefore, it is common that non-asbestos fibers are counted as well (i.e., cellulose, fiberglass, mineral wool, synthetics, etc.). This requirement allows for this method to err on the side of caution, while at times, presenting the dilemma of false positive results.

h.v

Area air samples were collected between December 30, 2016, and January 9, 2017. Analysis revealed fiber concentrations of less than 0.01 fibers per cubic centimeter of air for all samples. This is the clearance criteria set forth by the United States Environmental Protection Agency (40 CFR, Part 763) and the State of New Jersey (N.J.A.C. 8.60 and 12.120).

All PCM results are presented in Appendix I.
